DELETE: the text of the paragraph in its entirety.

INSERT: To resolve this issue Staff recommends Qwest insert the following language into its SGAT:

9.11.1.3.2 Shared Right-To Use Fees for Switched-Based Features - allows two (2) or more CLECs to share the applicable Right-To-Use Fees for Switched-Based Features. Under this sharing arrangement one (1) CLEC obtains a Switch-Based Feature from Qwest pursuant to this Agreement or an approved Interconnection Agreement, and another CLEC, pursuant to the terms of its

Agreement or approved Interconnection Agreement, may share the applicable Right To Use Fees equally between the requesting CLECs. Shared Right-To-Use Fees may also be established through joint Application by CLECs in which Qwest will have a separate Billing relationship with each applicant and will look to each CLEC for payment of its proportionate share of the Right-To-Use fees relating to the Switch Based Feature. For the first twenty-four (24) months after an initial request Qwest will prorate the Right-To-Use Fees for providing the Feature regardless of how many Carriers actually utilize the feature by determining the total applicable Right-To-Use Fees for provisioning the Feature and allocating equally that fee to all sharing CLECs (and billed directly to each such CLEC). Qwest shall not place unreasonable restrictions on CLEC's ability to make use of this arrangement.

INSERT at the end of the paragraph:

However, Staff agrees that the appropriate proceeding to raise this issue is Phase III of the Wholesale Pricing Proceeding, Docket No. T-00000A-00-0194.
